

# Making the World a Smarter Place

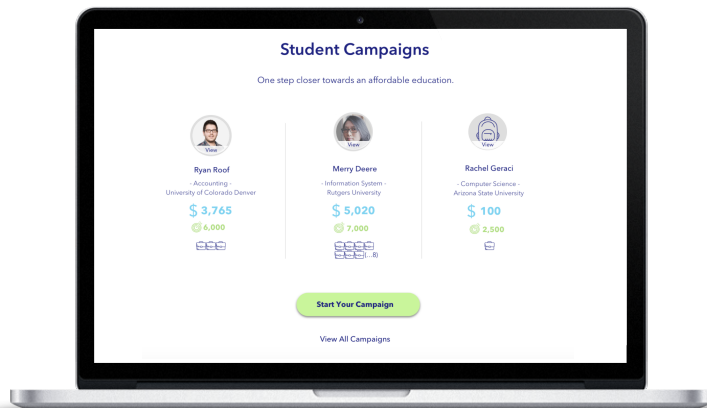

through resources, opportunities, and support

Spreading Opportunities //

Making Knowledge Accessible //

Empowering Youth

PeduL is a **crowdfunding platform** that **uniquely** helps **students** **fundraise** money for **college**.

Create a campaign. Get the opportunities.

PeduL is the most personal and secure way for students to fundraise their higher education expenses online. They build their network. They can get easy access to scholarships. They keep what they raise. And we protect their sponsors' generosity by transferring all funds to universities.

**Corporations** and **Scholarship Providers** will sponsor qualified students, which allows them to cultivate their future talent and refocus their administrative efforts.

PeduL **protects donor generosity** from start to finish by transferring funds from student campaigns to their respective universities in the form of a third-party scholarship.

**Institution pages** give patrons a way to give back to universities and organizations they support, while impacting verified and featured students who are in-need.
